SUMMARY/OBJECTIVE

Ex-Team Lead & Senior UI Developer transitioning into a Tech Lead / Engineering Manager role after leading large-scale web application projects and driving frontend guild initiatives. Diverse experience in architecting scalable applications, mentoring cross-functional teams, and optimizing performance across APIs, third-party integrations, and databases. Over 10 years of experience leading teams of 5–15 engineers and collaborating with C-Suite executives to deliver business-critical solutions. Spearheaded the development of a high-performance frontend platform that improved

PROFESSIONAL EXPERIENCE

Team Lead
***York IE**, Ahmedabad/ Mar, 2023 to Present*

- Provide daily technical guidance to a team of 6 to 10 Angular/React developers, ensuring efficient sprint execution and timely delivery across projects. Conduct 100% PR reviews, upholding code quality and compliance with organizational standards..
- Collaborate with the Senior Technical Manager to design and implement JavaScript-based automation workflows, reducing repetitive tasks and improving developer efficiency by 25%.
- Facilitate and document monthly knowledge-sharing sessions averaging 40+ attendees; ensure consistency by identifying hosts and curating session content.
- Mentor junior developers to foster technical growth and accountability, resulting in 2 team members earning promotions within the past year. As Front-end Guild Coordinator, oversee activities for the company's largest guild (30+ members), scheduling impact sessions that contribute directly to organizational growth.
- Train new team members on company procedures and safety requirements. Establish open and professional relationships with team members to achieve quick issue resolution. Recommend improvements to business systems and procedures to meet changing demands. Educate staff on organizational mission and goals to drive employee success.

Sr. UI Developer
***CU Rise Analytics Pvt. Ltd (A Trellance Company)**, Ahmedabad / April, 2022 to March, 2023*

- Led code reviews, implemented static analysis tools, and introduced automated testing frameworks, reducing defects by 15% and raising code quality standards across the team.
- Migrated SSO product integration from **Okta** to **Azure AD** in React, ensuring seamless authentication and improved security compliance.
- Collaborated with product managers and UX designers to translate complex business requirements into intuitive, high-performance user interfaces.
